

## COLLEGES AND UNIVERSITIES NOT ACCREDITED BY CHEA

This is a partial listing of colleges and universities from which degrees will not be accepted by the Michigan Civil Service Commission to satisfy educational requirements indicated on job specifications. Please note that this list is not all-inclusive; schools will be added as we become aware of them. Degrees issued by institutions that are accredited by an accrediting body recognized in the database maintained by the Council on Higher Education Accreditation ([www.chea.org](http://www.chea.org)) are typically accepted. (Please note that individual degree programs that have not been accredited by the recognized, programmatic accrediting body may not be accepted.) Degrees issued by foreign colleges and universities may be accepted if an applicant or employee can present evidence to demonstrate that the degree represents education equivalent to similar studies at an accredited university.
